

```
USE ROLE ACCOUNTADMIN;  
USE WAREHOUSE COMPUTE_WH;  
USE DATABASE SNOWFLAKE;  
USE SCHEMA INFORMATION_SCHEMA;
```

```
/*
```

Snowflake offers few tables functions which provide the activity without any latency unlike the Account Usage views.

1. No Latency
2. Data Available for 7-14 days only, few have more than that. Please refer the official documentation
3. Doesnot include dropped objects

```
*/
```

--Query History Table Function

```
SELECT * FROM TABLE(INFORMATION_SCHEMA.QUERY_HISTORY())  
ORDER BY start_time;
```

--Task History Table Function

```
SELECT * FROM TABLE(INFORMATION_SCHEMA.TASK_HISTORY())  
ORDER BY SCHEDULED_TIME;
```
